DIARY NOTES

25X1

DD/S

19 January 1956

25X1A6A

1. Have asked Jim Garrison to look into the  property with a view to the possibility of moving our Motor Pool there or acquiring it for warehousing purposes. H

2. Approved of a \$10,000 project for Shef involving a particularly sensitive operation in the Far East.

3. Talked twice to Alan Spalding of the Federal City Council. He wanted my full name and that of Stan Grogan which I gave to him. He also asked me for my confidential opinion as to the results of last night's meeting. I told him that frankly I felt we should follow the procedures now in process through the National Capital Planning Commission and that we proposed to do so. H

25X1A9A

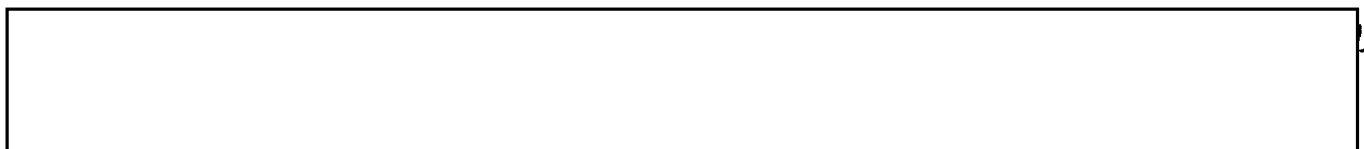

4. Met with Ed Saunders,  and others to talk about the possible relocation of the Finance Division. Agreed that the Offices of Training and Communications should show reasons why they could not move from the Alcott Hall area in order that we might be able to decide whether or not to move the Finance Division to Alcott Hall or to Quarters Eye.

5. Harry Reynolds telephoned to ask whether or not he should have secretarial help available for the Killian group. I told him to keep a couple of secretaries on tap and that I could probably let him know what the situation was after I met with members of the Committee on Monday.

6. Mr. Phil Mullin, Administrative Assistant to Senator Gordon Allott of Colorado, telephoned to inquire about the status of our architectural arrangements for our new building. I told him that we had already selected the firm of Harrison & Abramovitz as the principal architect but had not decided on an associate and could not do so at this time. H
